

Tent Sizing Chart

One of the most common questions we are asked is, “What size tent do I need?” The answer depends on what you want to put under it. You can use the following chart to help you determine what size tent is appropriate for your event. Keep in mind that our recommended square feet include room for guests and food service personnel to get around.

See our example chart below if you have any questions.

Item	Sq. ft for each	x No.	= Total sq. ft. needed
30” round table (seated or standing)	50		
36” round table for seating	60		
48” round table for seating	80		
60” round table for seating	100		
72” round table for seating	120		
4’banquet table (2/side)	40		
4’banquet table (2/side & 1/end)	70		
6’banquet (3/side)	50		
6’banquet (3/side & 1/end)	80		
8’banquet (4/side)	60		
8’banquet (4/side & 1/end)	90		
Ceremony/Stadium seating	5/chair		
Buffet table	100		
Bar	100		
Dance floor	2-4/guest		
D.J. table	100		
Band (depending on size)	100+		
		Total	

Example: Wedding for 100 guests
